

CRATES & BOXES

At Pages Timber we design and manufacture crates and boxes to client specifications to suit any product, commodity or application.

Our crates and boxes are manufactured using only the highest quality materials and are available for light, medium or heavy duty applications. Our dedicated sales team are available on request to assist in the custom design of crates and boxes where required to meet client specifications.

Pages Timber crates and boxes conform to international phytosanitary regulations and are approved by the Department of Agriculture, which carry the necessary certification for export purposes.

We offer an on-site packaging service, which includes design, manufacture, rigging & shrink wrapping of any size motor or equipment that needs to be transported, stored or protected, our qualified staff have extensive experience to assist with this process.
