ASSESSMENT OF QUALITY SYSTEMS

Dear Sir,

I refer to the assessment carried out at your Pages Timber – Wooden Door manufacturing facility on October 10, 2022 and February 2, 2023 by Nicholas Du Preez.

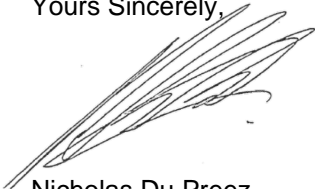

The quality system was evaluated and the auditor was able to verify that the requirements of the Certification Conditions, at the time of the assessment, have been met. Copies of the assessment checklist and assessment report were handed to you at the closing meeting.

A submission was made to our Certification Advisory Committee to register Pages Timber as a SATAS certificated supplier for products in compliance with SANS 545. The recommendation was approved and Pages Timber Granted Certification for the Manufacture of Wooden Doors under SANS 545. See Certificate 345.

Pages Timber have added Saligna open back Class 2 Heavy Duty (Approved by SATAS) to their production and Saligna BB Class 1 Heavy Duty (Approved by SATAS) since the original Certification.

I would like to take the opportunity to thank you for your support and look forward to a long and mutually beneficial relationship.

Yours Sincerely,

Nicholas Du Preez
Timber Auditor
